

Homework 11: Due Session 12

1. Flash Assignments:

- Continue fine-tuning your site pages. Next session we will focus on the back/next buttons and advanced lightbox navigation.
- Begin testing/experimenting with hidden navigation systems so that you can bring questions to class

2. Website: The Blog

- Activate Wordpress Blog through GoDaddy
- [Install Blog Tutorial](#)
- Bring a folder of downloaded themes from Wordpress that you think will complement your site.

3. Project Notebook

1. Make a list of what's missing on your Website. The **Website Completion** list. This should note what specifically isn't completed or needs work on your site, or what you still need to learn about in order to implement.
2. Consider sound for the site. Do you want a music player? Button sounds? Make notes or plans about sound on your Page Specs List.
