

Homework 6: Due Session 7

1. Flash Assignment:

- Create 3 different text animations to practice and to prepare for building a text or logo animation for your Website.
- Choose a Design Composition direction for the **secondary** page design and update it/refine it utilizing the feedback you received in class or elsewhere.
- Now create an **Index** page composition in Flash based on this updated design.
- Save both files and publish the SWFs. Make them as separate FLAs—index fla and subpage fla (whatever it is such as about fla or gallery fla)

2. Project Notebook

- Draw 3 different storyboards for your website logo/title **AND/OR** for a Splash page. You should need about 4-8 frames to describe each animation.
