

Homework 8: Due Session 9

1. Flash Assignments:

- Prepare at least 15 images and thumbnails for the first of your Galleries. Use Fireworks or Photoshop to crop, resize and optimize your images. Name them using this naming convention style:
 - i. **print_1.jpg** / print_tn_1 (for each image of that series)
 - ii. **brand_1.jpg**/ brand_1.jpg (for each image of that series)
 - iii. **photo_1.jpg**/ photo_1.jpg (for each image of that series)
 - iv. **etc.**
Remember that Bridge is excellent for batch renaming
- Photograph/Scan the rest of your work needed to complete your galleries.
- **Build out the Flash structure of the remaining pages** of your Website (minus the Blog pages) ie Home, About/Bio, Contact.
- Make placeholder pages for the Gallery/Portfolio. We'll begin adding the thumbnails and various navigations in class. Link the Gallery/Portfolio page to the rest of the pages.
- Upload and test links (on every page!).

2. Project Notebook:

Will be returned to you next session. It is being graded for the Midterm.
