

Homework 9: Due Session 10

1. Flash Assignments:

- Create a Gallery interface with thumbnails, graphics, a section title and site global navigation. Determine if each of your Galleries will be a separate page or whether you will nest multiple sections into one timeline/one page.
- Load one set of images (for one section) into your Gallery dynamically using the Loader class. Create thumbnail buttons or other types of buttons (ie numbers).
- Publish, organize files and upload to server. Test.

2. Project Notebook

Project Notebooks will be returned next week.
